Retail activity is up slightly this week. Offers increase on frozen hens, and toms reappear in the circulars after a brief absence. Ads breaking late in the week are very active on fresh bone-in breasts, mostly in the East. Prices on fresh and frozen bone-in breasts are stronger than the previous week and a year earlier. Rotisserie breasts are more available and prices are more competitive. Cutlets are widely featured in the East this week and marinated tenders are more available. A wide array of dark parts are available, everything except smoked necks. Offers of ground items are about the same as the previous week and a year ago. Average prices are higher on most items when compared to last week.

All report information gathered from publicly available sources including store circulars, newspaper ads, and retailer websites.

1/: FEATURE RATE: the amount of sampled stores advertising <u>any</u> reported turkey item during the current week, expressed as a percentage of the total sample. 2/: ACTIVITY INDEX: a measure of the absolute frequency of feature activity equal to the total number of stores for each advertised turkey item (e.g., a retailer with 100 outlets featuring 3 turkey items has an activity index of 300). 3/: STORES/AVG: the total number of advertising outlets and the weighted average price weighted by the respective number of outlets. 4/: SPECIAL RATE: the percentage of sampled stores with a no-price promotion (e.g., buy 1, get 1 free, etc.)

Note: rolls not included in ground fresh ground turkey total and weighted average.
